

SMITH SECKMAN REID DENVER OFFICE GROWS BY TWO

DENVER – September 26, 2012 – Smith Seckman Reid, Inc. (SSR), a Nashville-based engineering design and facilities consulting firm, has expanded its Denver office by hiring George Verstraete, PE, LEED BD+C, CEM, and relocating Don Reaville, PE.

Verstraete joins SSR as electrical engineer and project manager. He has over 20 years of experience in the project management, design and engineering of electrical systems in private, commercial, military and public projects. He has experience working on high performance design projects including multiple Net Zero and renewable energy projects. Other project experience includes work for federal government agencies, universities, correctional facilities and hotels. He was previously employed at Merrick and Company.

Verstraete received a Bachelor of Science in Engineering from Colorado School of Mines. He is a registered Professional Engineer in Colorado, Maryland and Texas. He is a Certified Energy Manager and holds memberships in the Institute of Electrical and Electronics Engineers, the National Fire Protection Association and the Association of Energy Engineers.

Reaville is a senior mechanical engineer and project manager who has been with SSR for 18 years, previously in the Nashville office. His expertise includes the design of heating, ventilation and air conditioning systems for institutional, industrial and commercial facilities. Reaville holds a Bachelor of Science Degree from Florida State University and is a member of the American Society of Heating Refrigeration and Air Conditioning Engineers.

About SSR

SSR is an employee-owned engineering design and facility consulting firm with 16 offices and more than 40 years of experience in health care, sports and entertainment, institutional and infrastructure projects. To learn more, visit www.ssr-inc.com.
